

MIRRORS PRODUCT GUIDE

PMMA-XT-MIRROR IS OUR MOST WIDELY USED PLASTIC MIRROR SHEET.

It has the aesthetical and functional effects of a normal mirror, but it is also:

SHATTERPROOF – LIGHTWEIGHT – FLEXIBLE

DEFORMABLE – THERMOFORMABLE

WARM TO TOUCH – IN MANY COLOURS...

Location: Covent Garden, London. #ReflectLondon

With sparkling clarity, like a glass mirror, you can obtain all the effect of the mirror but with the possibility to cut and form it into shapes. The material does its job with a perfect reflection and an increased perception of volumes. The colored gamma offers an excellent opportunity to catch the attention and influence the ambience. The gamma and the simplicity of processing the PMMA-XT-MIRROR boost and release your creativity.

In the sign industry, PMMA-XT-MIRROR provides long lasting UV resistant signs. In the promotional industry, PMMA-XT-MIRROR increases the feeling of luxury and reinforces the sensitivity of the value of products being displayed — so your products get the promotion *they deserve*.

PC-XT-MIRROR OFFERS EXCELLENT STRENGTH, SECURITY, FLAME RESISTENCE.

It has the aesthetical and functional effects of a normal mirror, but it also has:

HIGH IMPACT STRENGTH – DIMENSIONAL STABILITY AT ELEVATED TEMPERATURES

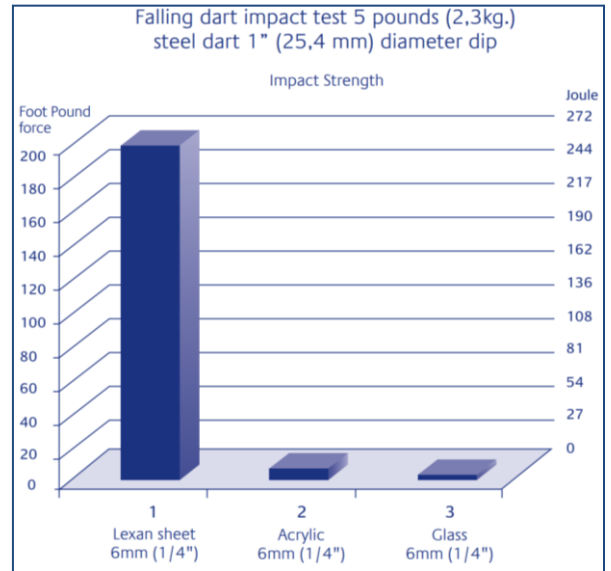

FLAME RESISTANCE – FDA COMPLIANCE

LIGHT WEIGHT – WEATHERABILITY – FORMABILITY...

Polycarbonate sheets are characterized by high levels of mechanical, optical, electrical and thermal properties. PC-XT-MIRROR is virtually indestructible in standard use.

Widely used in sporting and boating equipment, building and construction materials, partition walls, vehicle-boat-aircraft (only for internal use), outdoor signage, preschools, correctional facilities, horse stable and more.

EUMIRROR can offer PC-XT-MIRROR in standard silver color or in a variety of colors on request.
